So, what does our ground-breaking Allied Software really do?

YOU ASK THE QUESTIONS... WE DELIVER THE ANSWERS.

Cites Trusted Sources: Allied Software response specifies which authoritative sources like Acas, HSE, DVSA, etc. were used to provide that exact answer. ChatGPT does not cite sources.

Curated Content: It only uses reputable, pre-approved sources rather than the open internet, avoiding misinformation.

Workplace-focused: Designed for compliance with guardrails, unlike ChatGPT's generic unfettered responses.

Rapid, Accurate Answers:

Quickly searches known authoritative sources to give instant, high-quality answers vs slow human research.

Personalised Experience:

Separate accounts for each user/company vs ChatGPT's one-size-fits-all approach.

Continuous Upgrades:

Can add new capabilities and data sources regularly, ensuring it is up to date and current, while ChatGPT stays static.

Accountable Service:

Can follow up with Flagship about any issues, unlike opaque AI systems.

We have used Flagship on a number of occasions for lots of different services and each and every time they are great! Very informative, helpful and professional. Would highly recommend! Big thank you to Pete and all the team.

Sam James | Transport Manager | Rose Aggregates

We used Flagship Partners for the first time for our DVSA Earned Recognition Audit, very professional company. we have now signed up an annual subscription for training and advice.

Matthew Toin | Compliance Manager | Staples Vegetables

5 Stars!!! Pete and his team are a pleasure to work with, their exceptional knowledge combined with the passion and enthusiasm is always a pleasure.

Kim Lane | Director | Dalrod

We've used Flagship Partners on a number of occasions now for transport compliance and training. Even after 89 years of operating they can still teach us a few things. Their free online webinars and in person transport briefings are also really informative and worthwhile attending. Keep up the great work Pete and the team!
